

Hot Tip #18

Save Time and Money with Conference Calling!

ITS Hot Tips are created to help your business save money and improve efficiencies. Conference calling tackles both of these obstacles while offering numerous benefits.

Conference Calling:

1. Saves time by reducing the need for "face to face" meetings.
2. Eliminates the daunting task of making multiple phone calls to multiple people to get everyone on the "same page."
3. Allows for fast brainstorming sessions when immediate action is necessary and will help your organization make prudent decisions right away!
4. Saves money by cutting back on the expenditures of travel and lodging for meetings with people anywhere in the world.
5. Allows you to motivate and encourage employees and partners in a timely manner from across the country or world.
6. Unlike written communication, it provides the opportunity for all people involved to hear and understand the inflection in your voice.
7. Provides the ability for participants to respond in real time - all of these factors, in turn, create relationships.

ITS offers Conference Calling solutions for both traditional analog and VoIP customers at a low monthly rate. ITS Conference Calling offers:

- Security with two different pin codes for host and participants
- Available 24/7 - when you need it, no scheduling required
- Includes Toll Free number for participants to use
- Easy to use
